

As a NJ resident, I am disturbed that the FCC is considering overturning NJ's "Do Not Call" law since it is stricter than the Federal's DNC legislation. I strongly believe that the unsolicited calls received by my family has dropped because of the NJ law. I find it extremely insulting that the telemarketers want to be able to call me even though I have signed up for the DNC program. The amount of e-mails that I receive unsolicited surely make up for the number of telephone calls I am not receiving. DO NOT OVERTURN NJ'S LAW!!!!!!
